

Legacy Mentorship

(Name of Student)

Your student has expressed a desire to participate in our Legacy Mentorship Program through Faith Church. Parental consent is necessary for them to participate, and we want you to be comfortable with the process. Here is a summary of the details of the program:

- The Legacy Mentorship Program exists to facilitate intentional relationships between older and younger Christians, for the greater purpose of leaving a legacy of faith for the next generation.
- All adult mentors will go through a thorough vetting process before being paired with a student. Applications will be turned in, criminal and sexual predator background checks will be performed, and all references will be contacted. Mentors will be encouraged to contact parents of the students they will be meeting with as well.
- Faith Student Ministry staff and key leaders will match students with other adults from Faith Church to initiate a mentoring relationship.
- Existing relationships will be taken into account as often as possible during the matching process of partnership pairs.
- We cannot guarantee at this time that every student and adult will be matched up, it all depends on the number of people who sign up.
- Partnership pairs will set their own schedule for meeting together as they go through the book "Battling Unbelief" by John Piper. Once the book study is over, it is our goal that these mentoring relationships would continue on their own.
- Meetings will take place either in the student's home while the parents are there, or in a public place (coffee shop, restaurant, etc) with parental approval.
- Adults and students will be expected to come prepared to each meeting, having read the material, and completed any agreed upon tasks.
- Adults and students are encouraged to attend our wrap-up lunch on June 7 to share their stories, give feedback, and celebrate the end of the program together.

I am aware of the details of the Legacy Mentorship Program at Faith Church. I agree to let my child participate, and will support them as needed in this process.
